Dear Shri Fadnavis,

Urgent need for a Comprehensive Open Space Policy for Greater Mumbai

Open Spaces provide immeasurable social, health, economic and environmental benefits to individuals and the community at large. In an urban scenario, the increasing densities and population growth, coupled with the steady depletion of resources, make well designed and diverse open spaces an imperative to ensure the life of and livability in a city.

In Mumbai the importance of such spaces has been recognized by the Government of Maharashtra which constituted, by its Resolution No BMC/2512/CR No 953/ Ud-21 dated 3rd November, 2012, a Committee to formulate a uniform policy regarding proper planning & development of open spaces in Mumbai Municipal Corporation's limits under the Chairmanship of the Municipal Commissioner, MCGM. The officials and experts on this Committee were: Principal Secretary to Chief Minister; Personal Secretary to Deputy Chief Minister; Personal Secretary to Minister of State (Urban Development); Secretary, PWD; Metropolitan Commissioner, MMRDA; CEO, MHADA; CEO, MIDC; Managing Director, MSRDC; Consultants, DP 2014-1034; P. K. Das, Architect; CitiSpace (now NAGAR); Neera Adarkar, Architect, Debi Goenka, CAT. (copy enclosed).

The draft recommendations of this Committee, circulated in August 2014 to all its members for their comments and inputs, detail the importance of increasing both the quantity and quality of open spaces in Greater Mumbai. This is a sentiment which you have often echoed in your speeches.

Despite this, we are perturbed at the spate of ad hoc policies which, in essence, reduce the already dismal ratio of usable open space available in the city. Mumbai today has a miniscule ratio of 1.24sq m of open space for every citizen of our city as opposed to the mandated ratio of 3sq m per person of the National Building code (NBC)

Amongst such negative policies on Reserved Public Open Spaces are the Slum Rehabilitation Policy and the more recent policies permitting 4G Cell towers and 45 days of non-sporting activities on Playgrounds. (relevant documents enclosed)

The need of the hour is a holistic vision with commensurate planning and implementation to create a Mumbai which provides an enhanced quality of life for its residents and visitors. This automatically creates a conducive and attractive environment for the growth of Mumbai as a 'global financial, commercial and entertainment hub' of India.

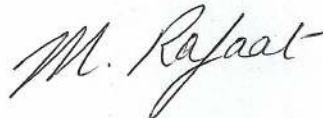

We at NAGAR urge you to make this comprehensive report the basis for formulating the Open Spaces Policy for Greater Mumbai keeping a long-term city and citizen friendly vision in mind.

We would be happy to extend all cooperation in formulating a policy for our fair city and would like to come and meet you in this connection. Please do give us an early appointment. We will be in touch with your office.

Yours sincerely

Sub :- First Meeting of Uniform Policy for proper planning & development of open spaces in Mumbai Municipal Corporation's limits.

Sir,

1. The Government of Maharashtra by its Resolution No.बीएमसी/२५९२/प्र.क्र.१५३/नवि-२९ dated 3rd November, 2012 have constituted a Committee to formulate a uniform policy regarding proper planning & development of open spaces in Mumbai Municipal Corporation's limits under the Chairmanship of the Municipal Commissioner, MCGM. The copy of the Govt. resolution is enclosed for ready reference.
2. As per the Govt. resolution, the Municipal Commissioner is at liberty to invite two additional experts as Members of the Committee.
3. The first meeting was held on 29.11.2012 at 11.00 a.m. when it was decided to invite experts who have already carried out significant work in this field. The Committee has, therefore, decided to invite you as a Member Invitee for providing the relevant inputs to enable the Committee to evolve a composite policy.

As your organization has already carried out considerable work in this field, you are, therefore kindly requested :-

- (a) to share the data of open space available with your organization along with Maps available in this respect.
- (b) to share the studies undertaken by your organization in this field including copies of study reports prepared and published, if any.
- (c) to submit a 15 minute power point presentation on Sr.No.(a) & (b) above.

The aforesaid data should be forwarded to the undersigned within 15 days. The date for making a power point presentation to the Committee will be separately intimated to your organization well in advance.

Having regard to the issues involved in this writ petition, which is pending for the last more than ten years, and also having regard to the competing claims over the open spaces in the city of Mumbai, namely acute shortage of open spaces on the one hand and 50% of the population residing in slums on the other hand, it appears that an amicable solution is required to be evolved by the parties entering into a dialogue. For this purpose, it would be desirable if a meeting of the parties and their Counsel is convened by

the learned Advocate General where other options as alternatives to the impugned policy could be considered and if required could be further discussed at further appropriate levels. It goes without saying that all this would take place without prejudice to the rights and contentions of the parties.

2. Petition shall now be listed for hearing on 3 October 2013 at 3.00 p.m.

DATE : 19 AUGUST 2014

P.C.:

The praecipe dated 11 August 2014 has been filed by the Assistant Government Pleader to request deletion of name of the learned Advocate General appearing for the State in the order dated 25 July 2014 on the ground that Mr. Khambata had previously appeared for one of the parties and, therefore, he would not like to appear on behalf of the State.

2. It is made clear that this Court is not hearing the present writ petition as an adversarial matter, but as a public interest litigation to find out solution to the problem of balancing the schemes of

rehabilitating slum dwellers and rights of the citizens to have green open spaces. We, therefore, do not accede to the request made by the learned Advocate General, who is requested to appear and assist the Court in this matter.

3. We now take up the praecipe dated 19 August 2014 filed by the advocate for the petitioners.

4. Mr. Aspi Chinoy, learned Senior Advocate for the petitioners, submits that in para 4 of the order dated 25 July 2014 needs correction. He submits that at the hearing a statement was made by Mr. Srivastav, the Secretary, Urban Development Department, that the stand of the State Government was that the policy of the State Government is to see that slum dwellers are rehabilitated in the vicinity of the land on which hutments are presently situated. The learned counsel, therefore, submits that para 4 of the order may be corrected to reflect the above stand.

5. In view of the above, para 4 of the order shall be substituted by the following:

“4. At the hearing today, Mr. Srivastav, the Secretary, Urban Development Department has submitted that the State Government would devise schemes / incentives in order to free up the

encroached RG / PG open spaces, but that practical compulsions may make it difficult to completely exclude some extent of in situ rehabilitation."

The order be corrected accordingly.
Both the praecipe stand disposed of.

Dear Shri Fadnavis,

11/12/14
लिपिक
मुख्यमंत्री सचिवालय
मंत्रालय, मुंबई-400022

Sub: Cabinet decision to extend use of reserved Playgrounds to 45 days in a year for non-sporting activities

We are writing to you regarding the cabinet decision taken by your government permitting the use of reserved Playgrounds to 45 days in a year for non-sporting activities. It is deeply disappointing that this anti children and anti citizen move is one of the first pronouncements of your government.

The importance of preventing Reserved Public Open Spaces from being diminished and in fact the vital need to preserve and increase them is borne out by the startling statistics that follow. There is a yawning gap between the universally accepted norms governing the requirement of open space per person in an urban environment and the dismal ratio available in Mumbai. Namely:

- 1.24sq m per person in Mumbai - MCGM's ELU (Existing Land Use) 2012
- 10-12sq m per person UDPFI- (Urban Development Plans Formulation & Implementation -Guidelines of Ministry of Urban Affairs Government of India)
- 9sq m per person -WHO (World Health Organization) /FAO (Food and Agriculture Organization) / UN
- 4.758 sq m per person – DDA (Delhi Development Authority)
- 3 sq m per person – CIDCO Navi Mumbai

You will agree that playground use for children not available for 5.5 months in a year (not usable for 4 months of the monsoon and not available for 45 days as per your new policy) is just not acceptable. In addition, every time an event takes place it ruins the ground and the extremely poor monitoring by the authorities leaves devastation behind! Surely political rallies cannot be any government's priority over and above the right of our children to have good quality playgrounds!

Page 1 of 2

Protection of Public Open Spaces has been an objective that NAGAR, through its erstwhile constituent CitiSpace, has long pursued. We are a not-for-profit organization seeking to improve the quality of life in Mumbai and work in the areas of preservation of public open spaces, solid waste management, improvement in air quality, preservation of beaches, mangroves, heritage places, efficient road space management and water conservation. NAGAR's creed has been strong and consistent advocacy with Government and its agencies for better implementation of existing laws, suggesting changes in policies for better governance in civic related issues and working towards urban renewal. It has a vast citizen base spread over the city and networks with other civic NGOs on specific issues. *(Brochure enclosed)*

New out-of-the-box solutions have to be found for holding public events which do not hijack as well as desecrate our scarce open spaces. **We urge you not to take this matter up in the December session of the legislature in Nagpur and defer it till you have explored alternate solutions from experts and citizens of Mumbai.**

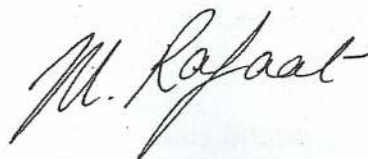

We at NAGAR are keen to meet you on this subject as our long engagement with the issue of public open spaces has given us valuable insights and inputs to offer.

Looking forward to a positive response.

We, the citizens of Mumbai, have on 8th December 2014 at Shivaji Park, Mumbai resolved against the proposed amendment to Section 37 A of the MRTP Act 1966 as follows:

Whereas there is paucity of open spaces in Greater Mumbai and;

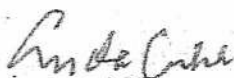

Whereas there is inconvenience caused to young sports men and players for regular practice, holding matches and competitions on the playground due to misuse of playground for non-sport activities; and

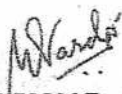

Whereas the cabinet of ministers Government of Maharashtra have proposed to amend section 37 A of the MRTP Act 1966 to permit holding of political meetings on the playgrounds and have proposed to extend the existing time limit of 30 days to 45 days in a calendar year; and

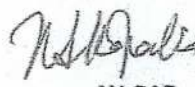

Whereas we the citizens of Mumbai representing NGOs and other social organisations are deeply concerned about the encroachment of non-sport activities on playgrounds. This meeting held on 8th December 2014 at Shivaji Park, Mumbai hereby resolved as follows:

"Resolved that the Cabinet of Ministers (GoM) should immediately withdraw and revoke the proposal to amend Section 37 A of the MRTP Act, 1966.

Resolved further that the Government of Maharashtra should reduce the existing time limit of 30 days to 15 days for the use of playgrounds for non-sport activities as per the original Bombay High Court Judgement on this issue. "

Citizens strongly protest the permitting of 4G installations on 'non buildable' reservations in Greater Mumbai.

Enclosed is a copy of the Resolution passed at a public meeting held on December 8, 2014 protesting the use of 'non buildable' reservations for installation of 4G Cell Towers Notified by UDD, Government of Maharashtra under 37 (1AA) of the MRTP Act 1966 on March 4, 2014.

Several citizen organisations and individuals had come together to discuss the proposal currently being considered by the MCGM. For the reasons contained in the attached Resolution we urge you to ask the MCGM to put this proposal on hold till a well advertised public debate is held on the subject. Inviting suggestions/objections advertised in innocuous papers; as was done for this notification on 2013, is just not good enough for actions that will have serious consequences!

We at NAGAR are keen to meet you on this subject as our long engagement with the issue of public open spaces has given us valuable insights and inputs to offer.

Looking forward to a positive response.

Resolution to protest against use of 'non buildable' reservations for installation of 4G Cell Towers Notified by UDD, Government of Maharashtra under 37 (1AA) of the MRTP Act 1966 on March 4, 2014

This meeting of citizens held on 8th December 2014 strongly disapproves of the 4G Cell Towers Notification issued by the Urban Development Department (UDD) Government of Maharashtra passed on March 2014.

Section 37 (1AA) of the Maharashtra Regional and Town Planning Act, 1966 allows modification of any part of or proposal made in a DP if it is a) an urgent requirement & b) it will not change the character of the DP. In the present case there is no urgent requirement for installation of towers and it clearly changes the character of spaces reserved for recreation and playgrounds.

By allowing erection of such towers on 'non-buildable' spaces, the door has been opened even wider to grave health risks from the Base Station antennae emanations. School children, college going adults, the elderly and infirm whose health most deserves protection will now be most at risk.

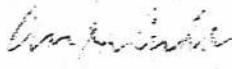

These installations will further cut down open spaces available to citizens. This is now a dismal 1.24 sq m per person in Greater Mumbai against 10 / 12 sq. m which is the building guideline accepted by the Center.

The notification specifies the need for warning signs around the installation ("Danger", "RF Radiation", "Restricted AREA", "Don't Enter", etc.) which will act as a deterrent to citizens and negate the very purpose of providing such recreational spaces. The adverse effect of the electromagnetic fields set up by these installations is thus fully recognized by UDD. Yet it is this very department that relaxes the regulation in 4G Cell Tower construction.

This meeting urges the Government of Maharashtra to withdraw permission for installing 4G Cell Towers on 'non-buildable' Reservations.
